

Name: _____

Let's "phi" if we find the Golden Ratio!

Directions:

- Find a partner
- Get a measuring device (such as measuring tape or a ruler)
- We're going to measure (in centimeters) 4 specific areas:
 - Belly button to knee
 - Knee to floor
 - Neck to belly button
 - Head (top of neck to top of head)

Student	Belly button to knee (A)	Knee to floor (B)	Neck to belly button (C)	Head (D)

Now, let's find some ratios...

Student	A to B	C to D	A+B to C+D	Average

How close are your ratios to phi?
Remember, phi is approximately 1.618
